Ackworth School

GCSE & A Level Success 2017

Once again our mainstream students have produced outstanding results with 91% achieving A*-C in their GCSEs. The number of A*-B grades, which is 77%, is the highest we have had for many years and some of the individual student performances are staggering in terms of the number of GCSE A/A* grades attained.

GCSE & A Level Success 2017

Anton Maree, the Head of Ackworth School said:

"Science and Maths grades were particularly impressive including 100% A-B in Biology, Chemistry and Physics and 100% A*-C in Higher Tier Maths. Whilst acknowledging the enormous achievements of the most able, what gives me the greatest pleasure is the consistent progress that our students make irrespective of their ability or starting point."*

A Level Results Continue to Rise

We are very pleased with the many outstanding performances achieved this year, particularly in Economics, Mathematics, and Science. These results are testament to the hard work of our students, and their parents and staff who have supported them so diligently. Such pleasing results also show that Ackworth School continues to go from strength to

strength, offering a broad choice of subjects and extra-curricular activities which are proven to lead to high levels of academic performance allowing many students to attain their first choice university. The pass rate A*-E is over 98% and our congratulations must go to Jakob Pfiz who achieved 3 A*s and 1 A grade, securing his place at King's College, London.
